62

Number of suits/jackets that Red Level was able to donate to Samaritan House of Atlanta through our Suit Drive in November (along with lots of other items). Thanks very much to everyone who was able to contribute.

RECENT PROJECT

RENOVATION IN CANDLER PARK

Red Level Renovations recently completed an expansion to this 1927 Tudor Bungalow in Lake Claire, giving the clients the additional space that they needed and creating a more functional use of the existing rooms. Keeping the Arts & Crafts period details, creating a safe, energy efficient home and blending in with the understated houses of the neighborhood were the keys to the project's success.

After removing the existing roof, attic and rear additions, Red Level built the second-level addition with modest rooflines. The new space houses a master suite, guest bedroom and bath, and hall reading nook. Interior walls and existing basement stairs were reconfigured to allow for the expansion. Solar thermal and tankless water heater systems, combined with spray-in insulation and Green finishing products throughout all helped to create a very healthy, energy-efficient environment.

In the master bath, rich marble tile and casings are complemented by the dark stained double vanity and tub panel. The new large shower features multiple showerheads, marble walls with niches and frameless glass doors.

Basket-weave floor tile, subway wall tile, and a vintage style pedestal sink and medicine cabinet all give the new guest bath a period look in line with the home's history.

THANK YOU

HAPPY HOLIDAYS

As 2009 comes to an end, many are happy to be turning the page

and moving on. However, there has been a substantial increase in activity across all areas of our industry in the last quarter of the year, and the survivors are beginning to thrive again. We feel truly fortunate to have had the success that we have, and we are looking forward to a great year in 2010. Many thanks to all of you that have supported us, and we wish you all a very safe and happy new year.
